## **Biographical/Historical note**

---

The Committee on Merchant Marine and Fisheries was established on December 21, 1887, to replace the Select Committee on American Shipbuilding and Shipowning Interests. The House Rules defined its jurisdiction as those matters concerning the merchant marine. This included all matters relating to transportation by water, the Coast Guard, life-saving service, lighthouses, lightships, ocean derelicts, the Coast and Geodetic Survey, the Panama Canal, and fisheries. Legislation referred to the committee also included matters involving seamen (their assignments, wages, treatment, and health) and officers (their titles, conduct, and licensing); the naming, measuring, licensing, and registering of vessels; navigation and related laws; pleasure yachts; collisions at sea, as well as international arrangements to prevent them; coasting districts; maritime schools; and, taxes, fines, and penalties on vessels. The committee has also regulated shipping in the Philippines and Hawaii. As did most committees of the House, the Merchant Marine and Fisheries Committee created subcommittees to handle portions of its jurisdiction. In 1919 the committee was given jurisdiction over wireless telegraphy (radio), and in 1932 its name was changed to the Committee on Merchant Marine, Radio, and Fisheries. After a dispute with the Committee on Interstate and Foreign Commerce, the jurisdiction over radio services was transferred to that committee in 1935 and the term "radio" was dropped from the name of the Merchant Marine and Fisheries Committee. Under the Legislative Reorganization Act of 1946 the jurisdiction of the committee was enlarged and more fully defined.
