My dear Friend:

I confirm my wire of even date reading as follows:

"Vote against prohibition amendment because beer is a harmless beverage and pays our Government nearly two hundred million dollars revenue annually. Prohibition destroys property and offers nothing in its place or compensation for a legally constructed business."

Yours very truly,

How is your health now? Our latest report here is, that you are rapidly recovering from your recent illness. When you return to the halls of Congress, get rid of that "Red" the prohibitionist as that your time can be better and unhindered devoted to the best interests of the United States. Good health and luck to you, Otto E. S.
