

GIVE US PURE LAGER BEER.

To the Honorable the House of Representatives of the United States of America, in Congress assembled:

We, the undersigned, citizens of the State of New York, earnestly pray that your honorable body pass, immediately, a law to prevent the present widespread practice among brewers of using, in the manufacture of Ale and Lager Beer, adulterants, such as corn, rice, starch, glucose and other substitutes for Malt and Hops. We believe these substitutes to be very detrimental to health, and are so advised by high medical authority. The use of Lager Beer has become a positive necessity to our masses, and, therefore, it is most desirable that it be freed from all pernicious qualities. Pure and unadulterated, it is not only a mild, but an exceedingly wholesome beverage.

We favor the speedy passage of the bill introduced in your house by one of its members, the Hon. Mr. Turner of Kansas.
